c. During annual open season, the contractor may restructure its team, to include changing subcontractors to team members, changing team members to subcontractors, revising teaming arrangement(s), and/or adding new team members/subcontractors as needed. All costs associated with the marketing, quotation preparation, presentation, submission and negotiation in response to any task request or task order shall be at the contractor's expense and will not be allowable as a direct charge. Post award Task Order administration shall not be a direct charge to the Task Order.

e. In accordance with DFARS 208.405-70(b), all BPA awardees within each domain will be given the opportunity to compete for task orders exceeding \$100,000 within that domain unless one of the exceptions at FAR 16.505(b) (2) (i)-(iii) apply or a Statute expressly authorizes or requires that the purchase be made from a specified source. A direct team member award may be made when the BPA holder proposes that approach. In the event a prime BPA awardee's business size status changes from small to large (whether due to business growth or merger/acquisition activity) and the awardee's BPA was awarded on a small business basis, the awardee's participation as a prime vendor shall be limited to offering direct awards to its small business team members, for full and open Task Order Requests for Quotation (TORFQs) only. This restriction does not limit the prime BPA awardee from participating, in those task orders awarded on a full and open basis, as a large business in a team member capacity under the direct awardee's quotation or as a large business team member/ subcontractor under other prime vendors' quotations. This restriction also does not limit the prime BPA awardee from participating in those task orders awarded on a small business set-aside basis, as a large business in a subcontractor capacity, under the direct awardee's quotation or under other prime vendors' quotations. This restriction will become effective upon the prime BPA awardee's recertification from small to large business on its primary GSA schedule. Furthermore, the Government may identify and set aside an entire task order for small business/socio-economic program participation at the prime vendor level.

f. No work shall be performed and no payment will be made except as authorized by a TO. The contractor shall not proceed with any work pursuant to this section until a written task order is issued by the Contracting Officer.

g. The Government's selection decision on each TO evaluation shall be final. Protests are allowable only in accordance with FAR 16.505(a)(10).

h. The Government reserves the right to make award without discussions.

i. TO award(s) will be made to the contractor or BPA holder who is determined to best meet the needs of the Government after consideration of all evaluation criteria. In making the best value determination, it is possible that after conducting a tradeoff analysis, the lowest priced response may not necessarily represent the best value. After responses have been evaluated in accordance with the criteria identified in the TORFQ, and the contractor's rates have been verified, the order will be placed with the contractor that represents the best value to meet the Government's needs.

j. In conducting the TO evaluation, the Government may use data provided by the offeror as well as data obtained from other sources (e.g., Dun and Bradstreet reports, DCAA audits, available industry market rates for labor and overhead). While the Government may elect to consider data obtained from other sources, the burden of providing thorough and complete information rests with the contractor/BPA holder.

k. Task Orders will be generated and distributed using the EXPRESS Net system.

l. Discounting will be allowed at the BPA level and/or task order level. The Contractor's task order quotation shall include both the GSA FSS labor rates and the discounted rate, if applicable.

m. The contractor shall submit an OCI Certification in response to each TORFQ, utilizing the format set forth in Attachment 5.

n. Oral Presentations. TORFQs may require oral presentations. Specific instructions will be provided in TORFQs, as applicable.

o. Technical Instructions (TI). The following provision shall apply for task orders containing TIs:

(1) Technical direction to perform effort under the TO PWS may be given by means of TIs issued in numerical sequence. TIs may be issued with option exercise modifications to describe the effort to be performed. Each TI shall establish the effort to be expended for its performance and may include the number of manhours, travel, direct material, and/or other direct costs which shall not be exceeded. The TI may be used to:

(a) Specify tasks to be accomplished under the TO PWS.

(b) Specify performance milestones and metrics (if applicable).

**Name of Offeror or Contractor:**

(c) Specify number of manhours to accomplish task within limits established in TO.

(d) Specify deliverables within those specified in TO.

(e) Provide other direction as may be required to successfully achieve the objectives of the TO within the parameters established by the TO PWS.

(2) A TI shall not, in any event, alter or modify the scope or terms of either the specific task order, the BPA or the FSS Schedule. If the contractor believes that a TI has been issued that will alter, modify, or amend the scope or terms of the task order, BPA or FSS Schedule, then the contractor shall promptly notify the Contracting Officer as required by FAR 52.243-7.

(3) A TI shall be issued by the Contracting Officer as an attachment to task order modifications and transmitted to the contractor.

(4) A TI may be modified, cancelled, or superseded anytime by issuance of a new TI.

(5) In case of extreme urgency, the Contracting Officer may instruct the contractor by telephone, but this shall be followed by a signed, approved TI.

(6) The TI shall clearly be tied to the applicable TO SLIN (if applicable) under which the effort is to be performed. If the TI is used to identify the price of that individual effort, in no event shall the total number of labor hours and price issued under a series of TIs exceed those labor hours and price set forth in section B of the specific task order for a particular SLIN.

(7) TIs are not intended to replace informal direct communication or nondirective information between the contractor, the contractor's team members/subcontractors, and Government personnel.

(8) TIs may be issued during the course of task order performance to provide technical direction that may more closely reflect new information or changed priorities within the TO SOW.

(25) Ordering Procedures for Task Orders

a. When the Government has a requirement for services to be performed under this BPA, the Contracting Officer will issue a Task Order Request for Quotation (TORFQ). The Contracting Officer will post draft task order requirements on Express Net for five days to promote a fair opportunity for consideration. During this period, contractors will be afforded the opportunity to submit questions, or comments regarding the draft requirement. At the conclusion of this five-day period a final TORFQ will be issued. In addition to written responses, the contracting office will consider other innovative means to accomplish efficient awards, such as Oral Presentations.

b. In the event of an urgent requirement, the Contracting Officer may omit posting of the draft task order requirements or shorten the 5 day draft task order requirement period..

c. Evaluation criteria for specific efforts will be set forth in the individual TORFQ. Options included in any order resulting from a TORFQ will be evaluated in accordance with FAR 52.217-5, Evaluation of Options (JUL/1990).

d. Requirements for each task order quotation shall be defined at the time of issuance. A not-to-exceed amount for travel, direct materials and/or other direct costs shall be specified in the TORFQ.

Any SINS identified must be covered by the GSA schedule award of the team leader (if the team leader or a subcontractor is to perform the effort) or team member (if a team member is to perform the effort). The established rates on the GSA schedule contract, less any proposed discount at the BPA or task order level will prevail unless schedule rates are revised in an amount lower than the previously established rates. Task orders under this BPA shall be issued at the sole discretion of the Government.

f. Performance-Based task orders are encouraged and preferred. The appropriate contract type and application of performance based contracting will be determined based on the circumstances of each individual task order.

g. Incidental Items and Other Direct Costs. Contractors are encouraged to provide materials through GSA Schedules. When necessary, open market/non-schedule items may be added to task orders on a cost-reimbursement basis. Open market/non-schedule items will be separately identified on the order and will not be subject to the GSA Industrial Funding Fee. As the Ordering agency, AMCOM will comply with all applicable acquisition regulations for such items and may request cost and pricing data in

**Name of Offeror or Contractor:****(40) ANTHRAX VACCINE IMMUNIZATION**

If at any time, and for any period of time, during the performance of task orders under this BPA, whether in direct or indirect support thereof, any contractor personnel must travel to a "high threat" area (including contiguous waters) during a crisis situation, those personnel shall have been vaccinated against the Anthrax virus. The contractor, with the written consent of the PCO, may terminate this BPA upon at least 30 days written notice. Active task orders will be terminated in accordance with FAR 52.212-4.

**(45) AWARD TERM CLAUSE**

The award term concept is an incentive that permits extension of the BPA performance period beyond the base period for superior performance. The BPA team may earn extensions to the BPA performance period on the basis of performance during the previous evaluation periods. During each year of performance, the quality of performance by each BPA team will be assessed to determine if it is in the best interest of the Government to continue with the BPA relationship. Additional 1 year BPA performance periods may be awarded during each year based on how the contractor has performed against the following criteria:

1. Task Order Performance
2. Actual performance versus proposed goals for:

(i) Direct awards to small business team members and

(ii) Small business subcontracting

## 3. Responsiveness

## 4. Competitiveness

(1) Task order performance is the most important criteria and is substantially more important than (2) Actual performance versus proposed goals for: (i) Direct awards to small business team members and (ii) Small business subcontracting, (3) Responsiveness and (4) Competitiveness, which are approximately equal in importance.

Changes to the award term criteria may be made unilaterally by the Government prior to the beginning of each award term evaluation period, provided that the BPA team has been given an advance notification of at least 15 days.

Each BPA holder will provide a self evaluation of its performance in relation to the performance criteria in accordance with Exhibit A, Contract Data Requirements List, A020, entitled Performance Review Report.

Performance will also be monitored by Government monitors. The self evaluation and the findings of the Government monitors will be reported to the ATDO (Award Term Determining Official). The ATDO will make the final decision on the award term and the BPA period of performance will be modified to reflect any extensions awarded. The award term decision is final and is not subject to the Disputes clause.

## (46) ANNUAL BPA ASSESSMENT (OPEN SEASON)

The program will be reviewed annually to determine whether it would be appropriate to issue a solicitation for the purpose of adding additional BPA holders. If it is in the best interest of the Government, the PCO may conduct an open season competition to add additional BPA holders.

## (47) ORGANIZATIONAL CONFLICT OF INTEREST

a. The Government requires technical, programmatic, logistic, and/or business/analytical support services related to concept definition, development, production, fielding, operation, maintenance and training in support of various aviation and missile weapon systems and support equipment to be performed by the contractor under this BPA.

b. The parties hereto recognize that performance of such services creates potential organizational conflicts of interest as addressed in Federal Acquisition Regulation (FAR) Subpart 9.5, Organizational and Consultant Conflicts of Interest. It is the intention of the parties that the contractor shall not engage in any contractual activities which could cause a conflict of interest with its position under this BPA which may impair its ability to render unbiased advice and recommendations or in which it may have an unfair competitive advantage as a result of the knowledge, information, and experience gained during the performance of this BPA.

c. The contractor shall identify all relevant facts concerning any past, present or planned interest (financial, contractual, organizational, or otherwise as contractor, subcontractor, or consultant) relating to the work to be performed under the BPA and bearing on whether the offeror has a possible conflict of interest with respect to being able to render impartial, technically sound, and objective assistance or advice, or being given an unfair competitive advantage. In the absence of any such interest, the contractor shall submit a written statement which represents to the best of its knowledge and belief that it does not presently have any organizational conflict of interest which would diminish its capacity to give impartial, technically sound and objective assistance and advice or would result in a biased work product or may result in an unfair competitive advantage. A list of categories and representative examples of AMCOM/PEO missions covered by this BPA is set forth at Attachment 02. It is the contractor's responsibility to identify to the Government any contracts they possess for these systems as a prime contractor, as a subcontractor, or as a consultant with either the weapon system prime contractor or major subcontractor.

d. Whenever, in the performance of this BPA, the contractor prepares, directly contributes to, participates in, or provides recommendations or advice related to the development of specifications, work statements, estimates, data or other information for hardware/software items, the contractor agrees that it shall not enter into any contract either as a prime, a subcontractor at any tier, or a consultant to furnish said items or components thereof during the life of this BPA or through the initial production contract, whichever is longer.

e. The contractor also agrees that it shall not enter into any contract with the item supplier to provide any support, analysis or consulting services. This prohibition will apply through completion of the final task order issued under this BPA.

f. During the performance of this BPA through completion of the final task order, the contractor, its subcontractors at any tier, and consultants are prohibited from analyzing, assessing, and/or making recommendations on any effort/documentation, hardware, software, or components which they produced in any capacity as a prime contractor, a subcontractor at any tier, or a consultant.

**Name of Offeror or Contractor:**

g. The parties hereto recognize that during the course of this BPA there is a potential for changes in relationships to occur. Accordingly, the contractor agrees to adjust and take any and all measures deemed necessary to comply with this clause and FAR 9.5. The contractor agrees to immediately notify the Contracting Officer of changes in relationships and provide a description of the action the contractor has taken or proposes to take to avoid, eliminate or neutralize any conflicts of interest which may arise due to said changes.

h. Use of other companies' proprietary data shall be necessary for contract performance. License rights to use this proprietary data shall be obtained either:

- (1) By the contractor directly from the owner of the proprietary data or,
- (2) By the Government through the use of a Specifically Negotiated License Rights Agreement.

When the contractor has entered into a direct license agreement with the owner of the proprietary data, the contractor agrees to provide a copy of the agreement to the Contracting Officer prior to receiving the proprietary data from the Government. The contractor further agrees that DFARS 252.227-7025(c) shall apply to all data provided to the contractor by the Government. If the Contracting Officer finds that said written agreement is not adequate, the Government has the right to withhold access to the proprietary data. Proprietary data subject to a Specifically Negotiated License Rights Agreement is subject to DFARS 252.227-7025 and will only be provided to the contractor after the contractor agrees with the terms and conditions of the Specifically Negotiated License Rights Agreement. Any data furnished by the Government containing trade secrets or commercial or financial data of other contractors shall be treated as proprietary data.

i. For the purpose of this clause, the term "contractor" means the contractor, including any company or entity of which it is a part (i.e., parent company), its subsidiaries, divisions, affiliates, any joint venture involving the contractor, and any entity which the contractor or any successor or assignee of the contractor uses as a prime contractor, subcontractor, or consultant to either the prime contractor or a subcontractor under this contract.

j. The provisions of this clause are fully applicable to all team members and subcontractors utilized by the contractor and this clause shall be included in all subcontracts, or other teaming arrangements the contractor enters into to support, either directly or indirectly, this contract.

k. No form of "business insulation" technique to avoid, evade or substitute for the restrictions set out herein shall be permitted except in the absolute discretion of the Government, the exercise of which shall not be subject to the Disputes Clause.

l. In the event the contractor breaches or violates any of the restrictions, disclosures or non-disclosures under this provision, the Government may terminate this BPA for default and pursue any other remedies as provided by law.

m. The contractor shall include in any response to a task order RFQ issued pursuant to this BPA, information concerning any work or contracts the contractor has been involved in during the past three (3) years, whether as a prime contractor, subcontractor, or consultant, relative to the categories and representative examples of AMCOM/PEO missions set forth at Attachment 02, in order to ensure that no task order will be issued to a contractor where such past work would create an actual or potential conflict of interest.

Furthermore, it is agreed that withdrawal of SOFA status for reasons outlined in USFK Reg 700-19, Section II, paragraph 6 shall not serve as a basis for the contractor filing any claims against the U.S. or USFK. a. Performance of task orders under this BPA may provide contractor personnel direct or indirect access to sensitive procurement and other closely held information, such as Government source selection information (SSI). Direct access occurs when sensitive information is specifically provided to and utilized by the contractor in performing the effort. Indirect access occurs when the contractor's association with such data is incidental to performance of the effort.

b. The unauthorized disclosure of sensitive procurement and other closely held information weakens the integrity of the Government procurement process, compromises the rights of prospective contractors, creates the potential for a real or perceived unfair competitive advantage and seriously impacts the Government's ability to provide timely acquisition support to the soldier. The contractor shall diligently protect all sensitive data to which it has access and shall avoid any action that might result in or reasonably be expected to create the appearance of improper disclosure or use of such information.

c. The contractor shall obtain and provide copies to the Contracting Officer and Contracting Officer's Representative (COR), executed non-disclosure agreements from all contractor personnel performing under this BPA. At a minimum, the non-disclosure agreements shall state that the employee (1) understands its obligation to protect the integrity of the Government procurement process and the rights of other contractors; (2) shall not utilize any sensitive information to which it has access for any purpose other than what is intended by the contract, including the creation of an unfair competitive advantage or the opportunity for personal gain; and (3) shall not disclose any sensitive information to any person within or outside the company, other than authorized Government personnel, unless prior written approval is provided by the Contracting Officer. The non-disclosure agreements shall also specify the penalties to be imposed by the contractor if the employee violates the restrictions set forth therein.

d. In addition to the contractor employees executing non-disclosure agreements, the contractor, as an entity, is obligated to negotiate and enter into non-disclosure agreements with the contractors supplying the sensitive procurement and other closely held information in those instances where the supplying contractor requires such an agreement be executed. These non-disclosure agreements shall state that the contractor will (1) protect the supplying contractors and supplying contractors, subcontractors information from unauthorized use or disclosure for as long as it remains proprietary; (2) refrain from using the information for any purpose other than that for which it was furnished and (3) such other reasonable terms as may be requested by the supplying contractors. The requirement for a non-disclosure agreement is in addition to the license referenced in paragraph h, Clause 47 (Organizational Conflict of Interest) unless the license specifically addresses sensitive procurement and other closely held information.

- (b) Include direct awards to small business (SB), small disadvantaged business (SDB), women-owned small business (WOSB), service-disabled veteran-owned small business (SDVOSB), veteran-owned small business (VOSB), and HUBZone small business (HZ) Team Members.
- (c) Base the percentage on anticipated total obligated dollars, not total direct award dollars.
- (d) This percentage goal does not necessarily equal the sum of SDB, WOSB, SDVOSB, VOSB, and HZ goals, since a SB should also be included in the goals for other SB categories if applicable.

2. Of the anticipated total obligated dollars, what is the proposed percentage goal for direct awards to SDB, WOSB, SDVOSB, and HZ Team Members? If 0%, enter 0%. Do not break out by year.

For all labor categories included in each schedule identified on Attachment 8, enter the GSA FSS rate for the Prime Contractor/Team Leader and all Team Members and, if discounting a the BPA level, the proposed BPA rate. When completing the rate for year 1, use the rate in effect as of January 2013. For subsequent years, identify the rate and begin/end date for the covered year consistent with the GSA FSS schedule. Include all GSA schedule rates (government site/contractor site, if available for the Huntsville, Alabama area and any other rates that are deemed applicable to the proposed approach to EXPRESS. Additional columns may be added as necessary to allow for differing site or subsequent year rates. If available, provide rates through December 2018. A separate worksheet must be completed for the Prime Contractor/Team Leader and each team member. Additional worksheets may be added to reflect individual schedules and/or differing site rates. For all subcontractors available on the BPA team, enter a subcontractor listing on a separate worksheet.

Tab B: Utilizing the format in Attachment 9, the BPA Team shall map the relevant GSA schedule labor categories listed on the proposed prime contractor/team leader and key team member's schedules into the Labor Category Baseline. At a minimum, relevant labor categories from the identified primary schedule shall be mapped into the Labor Category Baseline. Relevant labor categories from secondary schedules may be mapped in accordance with the proposed approach to performing the SOW requirements. For each labor category listed on the Labor Category Baseline, enter the corresponding GSA labor categories, Calendar Year 2013 GSA FSS rate(s) and the Calendar Year 2013 BPA rate(s) for the prime/team leader and each key team member. The GSA labor categories should not be mapped to multiple baseline categories, but to the single most appropriate baseline category. The rates in Attachment 9 must be consistent with the rates provided in Attachment 4.
