

1.0 Format for Submissions

Potential Offerors for the EAGLE acquisition are requested to provide the information outlined below. Information beyond that requested is neither desired, nor will it be considered in the viability determination. All page limitations are based on single sided pages, 8 ½ X 11 inch paper, single spaced, Arial or Times New Roman typeface no smaller than 12-point (smaller fonts are acceptable for graphics, figures, tables, footnotes and legends), 1" margins. Costly, complex presentations are neither required nor desired.

1.1 Content Requirements

All submissions must include the information described in Sections 1.1.1 through 1.1.6 below. The submission must be sufficient to allow the government to assess the potential of your company as a viable competitor in the EAGLE acquisition and award of an EAGLE BOA.

1.1.1 Understanding of the requirement to provide maintenance, supply, and transportation support services. Provide a 2 page narrative description of your company's understanding of the EAGLE functional areas that involve maintenance, supply, and transportation support services necessary to meet EAGLE global logistics services requirements.

1.1.2 Understanding of the Single Logistics Provider concept for installation based logistics services.

Provide a 1 page capability statement of how your company will use its capabilities and resources to execute an integrated approach of the EAGLE single logistics provider concept as a full service, prime contractor. Identify any shortfalls or risks that could impact your company's ability to meet the EAGLE requirements for a full service prime contractor providing an integrated approach for maintenance, supply, and transportation support services.

1.1.3 Teaming concept to meet any single logistics provider capability shortfall (submit this section only if your company is unable to provide maintenance, supply, and transportation support services in an integrated approach as a single company/full-service prime contractor). Provide a 1 page explanation of your company's approach for providing the EAGLE services requirement using teaming, joint ventures, subcontractors, etc., in a manner that clearly identifies how full capability for all three EAGLE functional areas is planned. Formal joint ventures should also be outlined in this section.

1.1.4 Customers-Army, US Government departments and agencies, commercial, foreign government, and coalition partners.

Provide a 1 page explanation of the types of customers your company and any team members, joint venture participants, subcontractors etc., has provided similar services as those required in the EAGLE acquisition.

1.1.5 Tactical/commercial equipment (mission/quantity), and mission experience (APS/LBE/PDTE/CIF/SSA/NEF/NET*, others as applicable)

Provide a 2 page explanation that identifies the types of equipment/materiel/missions your company and any team members, joint venture participants, subcontractors, etc., has experience in providing similar services to those included in the EAGLE functional requirements. Include some measurement as to the magnitude of the services performed, i.e., provide sufficient information demonstrating the scope of experience is similar to those required in the EAGLE acquisition.

1.1.6- Standard Army Management Information Systems (STAMIS)/Automated Information Systems (AIS) operation supporting maintenance, supply, and transportation support services. Provide a 1 page explanation that briefly identifies the types of STAMIS/AIS operations your company and any team members, joint venture participants, subcontractors, etc., has provided during delivery of similar contract services to those required in the EAGLE acquisition.

* Definitions:

APS – Army Prepositioned Stocks

LBE – Left Behind Equipment

PDTE – Pre-Deployment Training Equipment

CIF – Central Issue Facility

SSA – Supply Support Activity

NEF – New Equipment Fielding

NET – New Equipment Testing
