

**U.S. Army Contracting Command**  
*"Our People-Providing the Best Support!"*  
**Installation Contracting**  
**Division**

Ms. Mary Donovan  
 3 March 2016

U.S. ARMY

# Background

## What is Installation Contracting?

- Backbone of the Rock Island Arsenal – provides contracting support to the Garrison and all the tenants on Rock Island Arsenal as well as to all of Joint Munitions Commands (JMC) Government-owned Government Operated Facilities and Joint Manufacturing Technology Center on Island

## Beginnings

- Setup under storefront/back office concept in 1990s
- Procure items and services in support of manufacturing operations for the GOGOs plus base operation support and minor construction
  - Depots/Arsenals do Simplified Acquisitions Threshold (SAT) buys, Credit cards and administration of base operations contracts.
  - Back office at ACC RI does buys over SAT and more complicated buys using larger resource pool and benefits of Center's Policy and Legal resources.

## Additions

- Garrison mission was added in 2010
- Joint Manufacturing Technology Center mission was added in 2013
- Pueblo Chemical Depot mission was added in 2015

U.S. ARMY
